

BUSBY BARLEY

GROWER ACKNOWLEDGEMENT

MASTIN SEEDS thanks you for your purchase and advises you MASTIN SEEDS has been granted distributor rights and Plant Breeders Rights (PBR) to Busby Barley, after proposing a new lower cost royalty system. This will ultimately lower the price of seed.

Please respect Busby's PBR which will support the new lower cost royalty system, and lower seed costs. Any seed sales outside of this agreement will sabotage the new system, hurting everyone, by maintaining high royalties and high seed costs.

Your purchase of Certified Busby Barley seed entitles you to re-use **your own production for your seed use only.**

Thank you for choosing Busby Barley and helping to lower seed costs.

A handwritten signature in black ink that reads "Robert Mastin". The signature is written in a cursive, flowing style.

PRODUCTION TIPS

Busby is a high yielding variety that will really perform if given the inputs, but not just nitrogen. A moderate well balanced fertility package seems to work best.

On moderately fertile land I used 50lb of N, 30lb of P, 20lb of K and 10lb of S plus a micro nutrient package.

I also sprayed with a ½ rate of Stratego mixed in with the herbicide plus a micro nutrient stress relieving product called C3. Every time I use a fungicide I find my clean out drops at least 5% and I have a plumper, heavier sample.
